COMMENCEMENT

—♦—
DECEMBER 17, 2021

FROM THE REGENTS OF THE UNIVERSITY OF COLORADO TO THE CLASS OF 2021

Dear Graduate,

One of the greatest honors for the University of Colorado Board of Regents, the institution's governing board, is to be part of this commencement ceremony. Your success is a success for us all. Your degree is a measure not only of an accomplishment of dedication and talent, but also notice to the world that you have the skill and discipline to contribute greatly to any endeavor you pursue.

This commencement ceremony, like every University of Colorado graduation since 1935, will close with the reading of the Norlin Charge. As originally expressed by former CU President George Norlin in 1935, graduation "marks your initiation in the fullest sense of the fellowship of the University, as bearers of her torch, as centers of her influence, and as promoters of her spirit." Welcome to the ranks of CU's alumni family, which is over 475,000 strong. Congratulations on achieving this milestone. Well done and well earned!

Cordially,

The Regents of the University of Colorado

Dear Graduates,

Congratulations and welcome to the University of Colorado alumni family! Reaching this moment in your educational journey required hard work, perseverance and commitment. You should feel great pride in earning your CU degree and for taking this critical step to position yourself for success.

As a fellow CU alum, I've experienced the university's transformative effects firsthand. My CU degree has helped unlock countless benefits for me over the years, and I know your degree will serve you well regardless of your path in life. You're now part of a distinguished network of CU alumni who are contributing to their communities, the state of Colorado, the nation and the world.

Among the many things you've learned during your time at CU is that life is uncertain. That you persisted and earned your degree amid one of the most uncertain periods in recent history is testament to your strength and abilities. Remember this as you make your way in the world. And hold tight to the integrity, collaboration, innovative spirit and critical thinking that framed your CU education. They, too, will serve you well in the years ahead.

All of us at CU celebrate your achievement and wish you health, happiness and fulfillment in the future. Again, congratulations.

All the best,

Dear Graduates,

Welcome to the University of Colorado Colorado Springs commencement.

Today, the entire university community comes together in celebration of the achievements of the class of 2021, those who earned bachelor's, master's and doctoral degrees. We are pleased that family and friends who played an important role in your journey have joined us in celebration. Their physical presence today is as meaningful as their emotional and financial support to get to this milestone achievement.

Commencement ceremonies are steeped in tradition. As part of an exuberant procession of graduates marching into The BRO^DMOOR World Arena, you pass through a line of faculty and staff dressed in brightly colored regalia, receive degrees officially conferred by the University of Colorado Board of Regents, and seal completion with a handshake from the president or chancellor and provost or college dean.

As a campus community, we salute the accomplishments of your past, present and future. We expect the members of the class of 2021 to achieve great things personally and professionally and to make their mark on the world. We are confident UCCS has prepared you for the challenges inherent in a complex and fast-changing world.

The presence of the members of the University of Colorado Board of Regents, faculty, staff and alumni shows the pride of the university in you — its graduates. We are pleased to welcome you to the family of more than 55,000 UCCS alumni as you begin a new chapter in your lives.

This is your moment, graduates. Congratulations.

Respectfully,

A handwritten signature in black ink that reads "Venkat Reddy". The signature is fluid and cursive, with the first name "Venkat" being more prominent.

HONORARY DEGREE

Tilman “Tillie” Bishop

Tilman “Tillie” Bishop was one of the longest-serving members of the Colorado General Assembly. A lifelong public servant from the Western Slope, he served 28 years in the General Assembly and 31 years at Colorado Mesa University before he was elected to the University of Colorado Board of Regents in 2007.

During his four years in the Colorado House of Representatives and 24 years in the Colorado Senate, he focused on education, water, energy, national resource development, highways and transportation, legislative reform, youth corrections and the state personnel system. He introduced 736 bills and saw 456 passed into law, including a 1979 bill on ski area liability and safety requirements that became a model for other states. He was heavily involved in the redevelopment of the modern Colorado Department of Transportation in 1991 and the passage of the Great Outdoors Colorado Amendment in 1992 that redirected lottery funds to outdoor resources. He was named Legislator of the Year on 11 different occasions.

Bishop served as Colorado’s representative on the executive committee of the National Conference on State Legislatures. He was also a member of the executive committee of the Energy Council, an organization of 10 major oil-and-gas producing countries. He was also a Mesa County commissioner for four years.

Bishop served as an administrator at Colorado Mesa University for 31 years and later served as a member of its Board of Trustees. He was elected to the CU Board of Regents in 2007 from the Third Congressional District and served one term. His starting and ending point for any decision with the Board of Regents was “What’s best for the university and its students?”

In recognition of his service to the community, the Bishop Campus at Western Colorado Community College in Grand Junction and the Tilman Bishop State Wildlife Area in Palisade were named in his honor.

Bishop passed away June 16, 2019 at the age of 86 and was awarded this posthumous degree in 2020. The University was unable to present the degree to his wife of more than 60 years, Pat Bishop, during the pandemic and intended to do so during the December 2021 ceremony. Unfortunately, Ms. Bishop passed away in July of this year. Tilman Bishop is only the sixth individual in the 145-year history of the University to receive a posthumous honorary doctorate.

UCCS lauds Tilman “Tillie” Bishop for his leadership and public service to the state of Colorado and commitment to the university. The University of Colorado Board of Regents is proud to present him the 2020 Honorary Doctorate of Humane Letters in recognition of his contributions and support.

HONORARY DEGREE

An Honorary Degree (Doctor of Humane Letters or Doctor of Science) is the highest award the University of Colorado can bestow. It is the policy of the Board of Regents to award Honorary Degrees in recognition of outstanding intellectual contributions, university service, and/or public service.

Jill Schramm

Dr. Jill Schramm is a nationally recognized diabetes and chronic disease specialist and speaker, often doing lectures and speaking engagements on the topics of innovative approaches to improving care of persons with diabetes. She is currently an endocrine nurse practitioner at Monument Health Endocrine Services in Rapid City, South Dakota. She has been practicing since 2006 in numerous organizations to include the National Capital Region Military Medical Center Endocrinology Clinic and as Chief, Disease Management Clinic at Evans Army Community Hospital at Fort Carson, Colorado. During her time in Colorado, she greatly expanded diabetes services in the Colorado Springs Military Health System.

Dr. Schramm completed her Doctor of Nursing Practice at the University of Colorado Colorado Springs in 2009 as part of the Beth-El College of Nursing and Health Sciences' first graduating DNP class. She holds a master's degree in nursing from UCCS (2006) and a bachelor's degree in nursing from Virginia Commonwealth University.

Her passion is in providing culturally sensitive and innovative care models in those with health disparities in remote areas such as rural South Dakota, American Samoa, and Lanai, Hawaii. Her work in American Samoa has been instrumental in the development of clinically ready military nurse practitioners and military medical students in austere settings, enhancing military operational readiness.

An active scholar since 2006, she has been teaching at several universities in adjunct faculty roles in undergraduate, graduate, and doctoral education. She also held a full-time, joint faculty position at Uniformed Services University (USU) in the Graduate School of Nursing, Doctor of Nursing Practice program and the School of Medicine, from May 2016 until September 2020. She was the recipient of the Daisy Award for Extraordinary Nursing Faculty in 2019.

Her dedication to further education is clear through her numerous publications and articles in prestigious scholarly journals such as the Military Medicine Journal and in The Journal of Health and Human Experience. She has also written several book chapters in the Advanced Practice Education Associates (APEA) Clinical Practice Guidelines for Primary Care Providers.

She was born in Yankton, South Dakota, about five hours from where she now works upon returning to the state. She is married to Colonel (Retired) Francisco Dominicci, and together they have five children and three grandchildren.

In 2012, the University of Colorado Colorado Springs began a new Commencement tradition for two very special groups of alumni – our Golden and Silver Graduates. These alumni graduated 50 and 25 years ago, respectively, and helped build the foundation of what our university has become today. We are honored to recognize the classes of 1971 and 1996 at our 2021 Commencement ceremonies – Golden Graduates are recognized at the Spring ceremonies, and Silver Graduates are recognized during the Summer/Fall ceremony.

In 1997 a Colorado Springs community referendum merged the city-owned Beth-El College of Nursing, founded in 1904, with UCCS. Though not graduates of UCCS, we are pleased to include graduates of the Helen and Arthur E. Johnson Beth-El College of Nursing and Health Sciences in our tradition.

Dressed in silver regalia, alumni of the Class of 1996 will lead the 2021 graduates during today's ceremony processional.

WELCOME
TO THE
ALUMNI & FRIENDS ASSOCIATION!

On behalf of the more than 55,000 graduates who span the nation and dot the globe, we are excited that you are now a lifelong member of the Mountain Lion family. Stay informed about UCCS alumni events, benefits and opportunities at alumni.uccs.edu and on social media.

Established in 2015, the 1965 Main Hall Society recognizes donors who have shown extraordinary generosity to the University of Colorado Colorado Springs through their lifetime gifts. Named in honor of one of the original buildings on the campus, Main Hall, the Society's membership now totals 61 donors – comprised of individuals, foundations and corporations – an enormous tribute to the value of a UCCS education, its impact on individual lives, and benefits for the future of our region, state, and world. In its introductory year, UCCS recognized donors who had contributed lifetime gifts of \$500,000 or more spanning the first 50 years of the institution. Since 2016, UCCS recognizes cumulative lifetime giving of \$1 million or more. Some of these donors have asked to remain anonymous, and thus, we respect their choice not to be publicly recognized as a Society member. The UCCS community celebrates these extraordinary donors with recognition at various events, in select publications, and in a planned future commemoration marker on the UCCS campus.

MISSION OF THE UNIVERSITY OF COLORADO

The University of Colorado is a public research university with multiple campuses serving Colorado, the nation and the world through leadership in high-quality education and professional training, public service, advancing research and knowledge, and state-of-the-art health care.

Each campus has a distinct role and mission as provided by Colorado law.

(Laws of the Regents, Article 1, Part C. Adopted 02/11/2010.)

MISSION OF THE UNIVERSITY OF COLORADO COLORADO SPRINGS

The Colorado Springs campus of the University of Colorado shall be a comprehensive baccalaureate and specialized graduate research university with selective admission standards. The Colorado Springs campus shall offer liberal arts and sciences, business, engineering, health sciences, and teacher preparation undergraduate degree programs, and a selected number of master's and doctoral degree programs.

Colorado Revised Statutes. Senate Bill 11-204. Section 2. 23-20-101 (1) (c) Approved June 10, 2011.

VISION OF THE UNIVERSITY OF COLORADO COLORADO SPRINGS

UCCS, a premier comprehensive undergraduate and specialized graduate research university, provides students with academically rigorous and life-enriching experiences in a vibrant university community. We advance knowledge, integrate student learning with the spirit of discovery, and broaden access to higher education for the benefit of southern Colorado, the state, nation and world.

*From the baccalaureate address by President George Norlin, of the University of Colorado, June 1935. Portrait of University of Colorado President George Norlin taken by Charles Snow, January 27, 1931
Courtesy, CU Boulder Libraries, Collections of Distinction.*

“You are now certified to the world at large as alumni of the university. She is your kindly mother and you her cherished sons and daughters.

This exercise denotes not your severance from her, but your union with her. Commencement does not mean, as many wrongly think, the breaking of ties and the beginning of a life apart. Rather it marks your initiation in the fullest sense into the fellowship of the university, as bearers of her torch, as centers of her influence, as promoters of her spirit.

The university is not the campus, not the buildings on the campus, nor the faculties, nor the students of any one time — not one of these or all of them. The university consists of all who come into and go forth from her halls, who are touched by her influence and who carry on her spirit. Wherever you go, the university goes with you. Wherever you are at work, there is the university at work.

What the university purposes to be, what it must always strive to be, is represented on its seal, which is stamped on your diplomas — a lamp in the hands of youth. If its light shines not in you and from you, how great is its darkness! But if it shines in you today, and in the thousands before you, who can measure its power?

With hope and faith, I welcome you into the fellowship. I bid you farewell only in the sense that I pray you may fare well. You go forth, but not from us. We remain, but not severed from you. God go with you and be with you and us.”

THE UNIVERSITY SEAL

The University of Colorado has used three seals in its lifetime. The present seal, adopted in 1908, depicts a classical male Greek figure seated against a pillar and holding a scroll. Laurel branches frame a burning torch beside him. The Greek inscription means “Let Your Light Shine.” The seal’s designer, Henry Reed of Denver, chose the classical motif because Greek civilization “stands as the criterion of culture.” The laurel symbolizes honor or success, the youth of the figure suggests the “morning of life,” and the scroll represents written language.

From 1893 to 1908, the university seal was a copy of Wyon’s medallion, “Science Trims the Lamp of Life.” The classical figure of a Greek woman knelt before a lamp and was flanked by mariposa lilies, which President Baker described as “a true Colorado flower.” Before 1893, a seal was used which essentially copies the Colorado state seal. It was never adopted by the Regents.

The official seal of the University of Colorado is used primarily on official documents, such as diplomas and transcripts that have been issued on behalf of the university. The Board of Regents uses the seal in transmitting official business.

THE PRESIDENTIAL CHAIN OF OFFICE

Chains of office or “necklets” are one of the oldest symbols of authority. They have been worn as early as the days of the Roman Empire and displayed by emperors, kings, pharaohs, and religious figures as physical representation of their power and position. In their formal portraits, both Napoleon and Henry the 8th were pictured wearing these symbols.

The tradition of the chain of office was passed down through the Middle Ages and coincided with the rise of the university system in Europe. Many of these European institutions of higher learning were branches of the church or connected to royal power and soon the chain of office became a treasured part of university practice.

When American colleges and universities began to establish themselves in the 17th century, they adopted the same chain of office tradition from their European counterparts. Each chain of office is as unique as the institution it represents. In most designs a prominent medallion or shield is suspended from a series of links. The central piece usually bears the institution’s official seal or logo, and it may be enhanced with enamel in the official colors of the school.

The links in each chain of office are also highly personal to the institution they represent. Often shaped to resemble specific school symbols, they can be engraved with meaningful words, mottos, or ideas. Chains of office are worn as part of the pomp and ceremony at official public celebrations of the college or university.

The University of Colorado Presidential Chain of Office was created in 1980 by Mary Sartor, M.F.A., University of Colorado Boulder, for the inauguration of President Arnold R. Weber. The chain was a gift to the university by Mr. and Mrs. David G. Hawthorn, Class of 1924.

Colorado gold and silver are used throughout the chain to symbolize the importance of those minerals to the history of the state. The gemstones chosen also consist entirely of minerals from Colorado.

Three pendants are suspended on the chain. The back pendant is the seal of the State of Colorado surrounded by a golden ribbon representing the golden “Circle of Knowledge.” The top pendant in the front, the seal of the University of Colorado surmounted by an arch set with diamond and topaz, signifies the necessary link between the search for knowledge and its practical application to the world outside the university. The seal is supported at the bottom by the laurel wreaths found in the seal, emblematic of honor and success.

The bottom pendant is centered with a golden topaz indicating man’s quest for knowledge. The surrounding ring is paved with fragmented cubes and diamonds which suggest fragments of knowledge with brilliant breakthroughs of understanding. The chain surrounding these pendants symbolizes the endless but ever-changing cycle of human knowledge.

The presidents of the University of Colorado are:

THE CHANCELLOR'S CHAIN OF OFFICE

A campus commencement tradition began in 2008 when the Chancellor's Chain of Office was created to recognize and celebrate the chancellors who have led the University of Colorado Colorado Springs since its founding in 1965. The chain was a gift to the university from Kathy Griffith and other campus leaders. Mrs. Griffith worked in the Chancellor's Office for 30 years – upon her retirement in 2008, and provided the initial gift to create the chain.

The chain is a traditional part of academic regalia that provides recognition at formal events to the person who currently holds the position of chancellor, as well as those who previously filled the role.

The Chancellor's Chain of Office is connected with the interlocking CU to symbolize campus ties to the University of Colorado System. The words "Chancellor" and "Colorado Springs" surround the chain's medallion of the university's seal. The chain includes links denoting the university's six colleges and schools; it also includes individual links recognizing all UCCS chancellors. The chancellors listed are:

| | | | |
|--------------------|-----------|----------------------|--------------|
| Lawrence Silverman | 1974-1977 | Linda Bunnell Shade | 1993-2001 |
| Don Schwartz | 1978-1982 | Pam Shockley-Zalabak | 2002-2017 |

ACADEMIC DRESS

The tradition of the academic costume began during the twelfth or thirteenth century in the early European universities. Since the clergy composed the majority of the educated class, academic dress is an adaptation of the cape or mantle which was usually of silk or wool and worn by church dignitaries in religious processions.

Through the years, great diversity in color and in style of cap, gown and hood developed. In 1896, the colleges and universities in the United States adopted a uniform code governing academic dress. Today, the black gown, hood, and mortar board worn by the graduates in most institutions follow this code.

While it is not apparent to the casual observer, the gowns worn by the recipients of the various degrees differ somewhat in design. The sleeves of the gown worn by the baccalaureate candidate are long and pointed, while the sleeves of the gown worn by the master's degree recipients are square at one end with a slit at the elbow. The doctor's gown has flowing sleeves with three bars of velvet and facing of velvet down the front of the gown.

Those who receive a master's or a doctoral degree from the University of Colorado wear hoods lined with the school colors, silver and gold. The hood worn by the doctoral candidate differs in design from that of the master's as it has side panels and is slightly longer. The velvet border of the hood indicates the degree and usually follows the same code as the color of the tassels.

The oxford cap, usually referred to as a mortar board, is black and has a long tassel which is fastened by a button on the top. Candidates for the baccalaureate degree wear the tassel pendant over the right front of the cap before the degree is conferred, then it is worn on the left thereafter.

Cum Laude candidates wear bronze honor cords. Magna Cum Laude and honors candidates wear silver honor cords. Summa Cum Laude and special honors candidates wear gold honor cords. The color of the tassel on the bachelor's cap indicates the field of study, with the exception of the BA degrees in Letters, Arts & Sciences whose candidates wear white tassels indicating the arts.

THE NATIONAL ANTHEM

Oh, say, can you see, by the dawn's early light,
What so proudly we hail'd at the twilight's last gleaming?
Whose broad stripes and bright stars, thro' the perilous fight,
O'er the ramparts we watch'd, were so gallantly streaming?
And the rockets' red glare, the bombs bursting in air,
Gave proof thro' the night that our flag was still there.
O say, does that star-spangled banner yet wave
O'er the land of the free and the home of the brave?

The history of the University of Colorado dates back to the earliest days of Colorado and precedes the creation of the state. At its first session in 1861, the Colorado territorial legislature passed an act providing for the creation of a university in Boulder. To establish the university, the legislature appropriated \$15,000, which was matched by Boulder residents. However, the formal founding was delayed for another fifteen years by the Civil War. When Colorado became the 38th state in the Union in 1876, the university was declared an institution of the state, and the Board of Regents of the University of Colorado was established under Colorado's State Constitution as its governing authority.

The University of Colorado Colorado Springs has a rich history as a site and campus. Many millennia before any students began studying here, a small group of ancestral American Indians set up camp overlooking an arroyo on the west edge of what is now the campus. Remains from approximately 30 sites used by Plains Indians from about 100 A.D. to 1400 A.D. dot the campus grounds. The cultural heritage of the area is witnessed not only architecturally and in diverse ecological phenomena but also in the significant prehistoric archeological components observable throughout the University acreage. The daily discarded artifacts of Cragmor Sanatorium life - medicine bottles, crumbling foundations, and broken dishes are intertwined with artifacts from the prehistory of the region.

Henry Austin, for whom the bluffs on campus were named, purchased a large part of what is now the campus in 1873 to graze herds of sheep. The first known building on the site was a cabin built by the world-famous physician, Dr. Edwin Solly. Dr. Solly suffered from tuberculosis and moved from

England to the area, as the region was becoming known for its healthy climate. After years of planning for a sanatorium on the site, Dr. Solly was spurred into action in 1902 when General William Jackson Palmer (founder of Colorado Springs) gave him 100 acres of land on Austin Bluffs and \$50,000 towards the start of his sanatorium. Solly selected one of the most important and versatile architects working in Southern Colorado, Thomas MacLaren. MacLaren (1863-1928), acknowledged master of architecture, designed many structures in Colorado Springs including several sections of the opulent BROADMOOR Hotel. The sanatorium building echoed the aesthetics of the founders merging with Spanish-Moorish influence; it embodied the heritage of the builders of Colorado Springs and the understated beauty of the Hispanic culture. Cragmor Sanatorium (now Main Hall) opened its doors to patients on June 20, 1905, and thereafter became the most luxurious place for well-to-do consumptives in the United States. Dr. Solly named the site Cragmoor (later shortened to Cragmor), reminiscent of the crags and moors he had left behind in Great Britain.

Cragmor became the health mecca for artists, writers, and corporate tycoons who found not only their health but also a new home in Colorado Springs. Laura la Tille (Broadway performer), Constance Pulitzer (Joseph Pulitzer's daughter), Murielane Pancost (concert soprano), Jeanette MacCoil (well-known New York musician), and Russell Cheney (renowned painter) spent time and regained their health at Cragmor. Upon his death Solly was memorialized as a world class physician who had brought the Colorado Springs community to global acclaim for its outstanding health facility. Ironically, the world forgot Solly as Cragmor became even more established under the direction of new

leaders in health care: Gerald B. Webb, Alexius M. Forster, Otto Einstein, and George J. Dwire.

The 1930's stock market crash brought financial disaster to many of the Cragmor Sanatorium's exclusive clientele. The facility was adapted to serve the health needs of less affluent patients. Alexius Forster's death in 1954 (took charge of Cragmor in 1910 at age 29) found Cragmor at a loss for medical and financial leadership. The last decade of the sanatorium's homeopathic life was to become tied to the Bureau of Indian Affairs as Navajo Indians were flown in to Cragmor. This was one of the first public health programs launched by the newly formed U.S. Department of Health, Education and Welfare (HEW). The first Indian patients arrived at Cragmor in 1952 with the signing of a government contract between the Cragmor Foundation and HEW. The institution would be guaranteed a permanent base of financial support. In return, Cragmor would provide for the medical needs of hundreds of tuberculous Navajos. George Dwire, Managing Director, oversaw the decade of fiscal recovery for the institution. He created a dynamic program which not only provided for the health needs of hundreds of Navajos infected with tuberculosis but also expanded to include educational and occupational therapy. As the health crisis of the Navajo people subsided so did the Federal funding for Cragmor. By April of 1962, remaining patients were being transferred to other facilities.

As early as the 1920s, the University of Colorado offered courses at numerous Colorado Springs

locations including Colorado College and various storefronts. By the mid-1960s, community leaders were pressing for a full-fledged University of Colorado presence in the community. In his negotiations with then-Governor John Love, Hewlett-Packard (HP) co-founder David Packard, a Pueblo native, wanted a permanent University of Colorado campus in Colorado Springs to support the educational needs of company employees. The combination of the state's desire to attract HP to Colorado Springs and George J. Dwire's sale of the defunct 80-acre Cragmor Sanatorium property for \$1 led to birth of the Colorado Springs Center of the University of Colorado. June 15, 1964, commemorated the funding and legislation signed by Governor Love allowing the University of Colorado to assume custody of Cragmor. In 1965, the Colorado Springs Center of the University of Colorado opened on the south side of Austin Bluffs, an area which showcased a spectacular panoramic view of Pikes Peak and the Garden of the Gods; tuition was \$13 per credit hour. Professor offices in Cragmor Manor (now Cragmor Hall) were equipped with small kitchenettes and private bathrooms, due to the building's previous use as a nursing home (Cragmor Manor was added to the Sanatorium in the 1950s). A few offices were still outfitted with this unique piece of history as late as 2002; Cragmor Hall was completely remodeled and reopened in January 2004.

From 1965 to 1972 the Colorado Springs Center operated as a division or extension of the Boulder

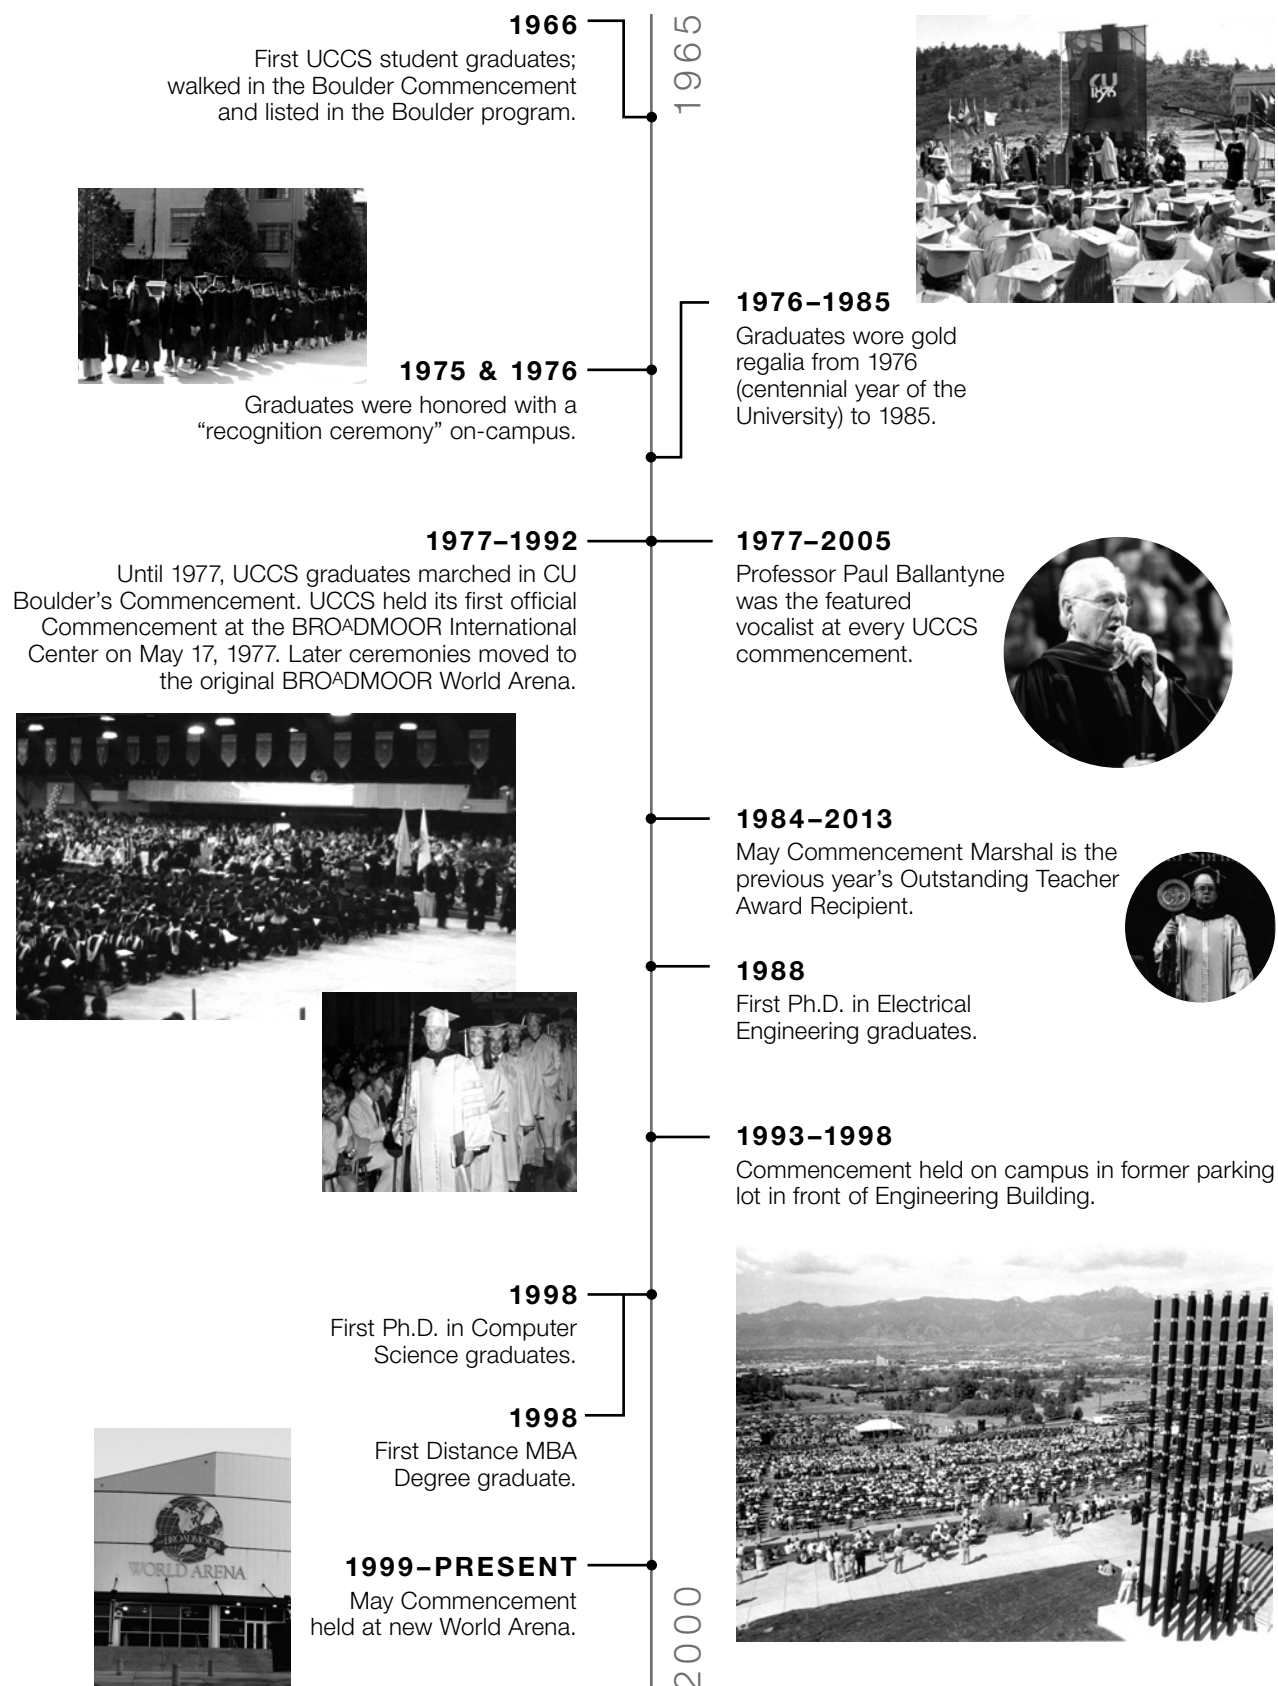

campus. It became the first permanent home for a growing following of scholars. Colorado Constitutional Amendment 4, approved at the 1972 Colorado General Election, designated the Colorado Springs campus and two other centers as distinct campuses of the University of Colorado. Dwire Hall opened as the first solely academic building on campus in 1972; it was completely remodeled in 2007. In 1974, the University of Colorado reorganized into four campuses – Colorado Springs, Boulder, Denver, and the Health Sciences Center in Denver. The two Denver campuses later consolidated administratively in June 2004; the model was reversed in 2014 for each campus to again have its own chancellor. 1974 also marked the establishment of the first Chancellor of the Colorado Springs campus, with ties to the Boulder campus being changed to have the campus directly reporting to the President of the University. UCCS grew over the years, and in 1996 the first on-campus student housing opened. The next year a community referendum merged the city-owned Beth-El College of Nursing with the campus. During the 2010-2011 new branding campaign, “at” was removed from the official UCCS name – University of Colorado at Colorado Springs – to become University of Colorado Colorado Springs.

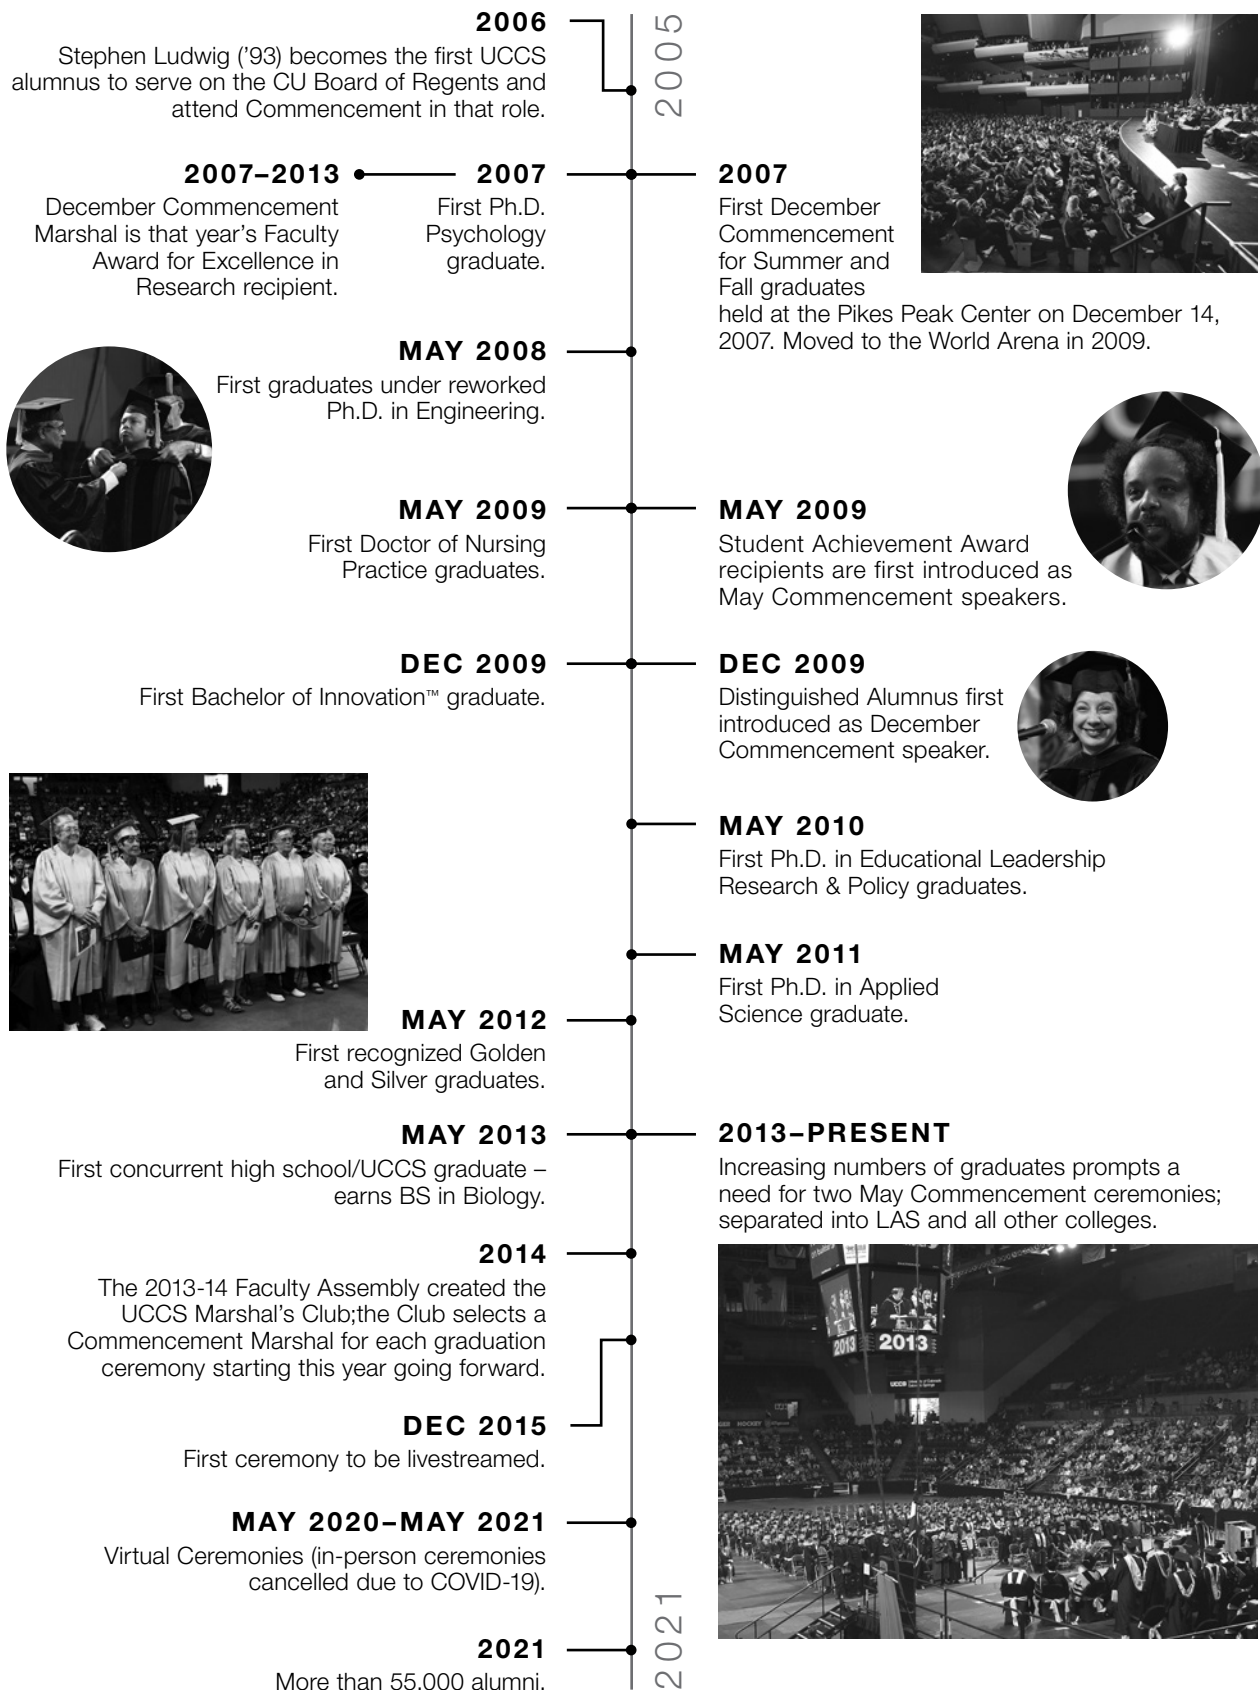

Because of the ties to HP, initial university programs focused on engineering and business. Today, 56 years after its beginning, UCCS offers 50 bachelor's, 25 master's, and five doctoral degrees in six colleges and schools. The initial university programs of engineering and business still serve as pillars of the university, and are joined by a broad

range of degree programs offered in the liberal arts and sciences, as well as professional programs in nursing, education and public affairs to meet the needs of Colorado's second-largest metropolitan area and beyond. In 2012, Colorado Springs voters again added to the UCCS campus by agreeing to lease city-owned Memorial Hospital to University of Colorado Health. As part of the agreement, an administrative branch of the CU School of Medicine is in University Hall at UCCS. Recently, partnerships such as with the National Cybersecurity Center cast an eye toward the future. From its original 80 acres, UCCS has added 450 additional acres along Austin Bluffs Parkway and North Nevada Avenue. North Nevada continues growth with the opening of the William J. Hybl Sports Medicine and Performance Center in summer 2020.

UCCS spring commencement ceremonies have been held at the old BROADMOOR Ice Arena, a campus parking lot where the Osborne Center for Science & Engineering now stands, and The BROADMOOR World Arena. The first December commencement ceremony for summer and fall graduates was held on December 14, 2007 at the Pikes Peak Center. After only two years, the December graduates outgrew the Pikes Peak Center, and now all yearly ceremonies are held at The BROADMOOR World Arena. The COVID-19 pandemic caused the May and December 2020 and May 2021 Commencements to be the first-ever in-person ceremonies to be cancelled. Since the first UCCS commencement in 1975, more than 55,000 students have graduated from the University of Colorado Colorado Springs.

The University of Colorado Colorado Springs mascot is the mountain lion. It is visible across campus in a variety of ways – as the artistic logo on UCCS shuttles, the grand marble statue on El Pomar Plaza (moved from University Center Lower Plaza in March 2016), and the costumed mascot who ignites crowds at athletic games and official campus events. The mountain lion is an integral part of campus life, but that has not always been the case.

As UCCS began to develop an intercollegiate sports program in the 1980s, it became necessary to establish team identity with official colors and a mascot. In 1986, the first UCCS mascot, the hawk, was chosen and green and white sports uniforms were purchased. The Editor's Corner in *The Scribe* (student newspaper) was even renamed "The Hawk's Eye." Until this time, the campus was told it was part of the University of Colorado System, and as such, already had a mascot — the buffalo. NCAA rules stated that due to differences in division level sports played at the Boulder and Colorado Springs campuses, UCCS was not allowed to claim the buffalo as its mascot. At the June 18, 1987 University of Colorado Board of Regents Meeting, the "regents decided not to officially designate a school mascot and colors for UCCS, but instead opted to allow UCCS to choose its own mascot while still maintaining the official CU colors of gold, silver, blue and black" (*The Scribe*, August 1987, pg 1). "CU Gold" became the accepted identity of the sports teams in Fall 1987.

In 1991, the student body voted for the "Fighting Longnecks" – or giraffes – to become the unofficial spirit symbol. This was personified by "Stretch," a costumed giraffe obtained by former chancellor Dwayne Nuzum. Other options for a new spirit symbol considered by the Student Government Association (SGA) Committee were eagles, prospectors, gold diggers, golden avalanche, and pronghorns. Popularity of the spirit symbol waned with time. Many did not connect the giraffe with "CU Gold" and wanted a stronger identity.

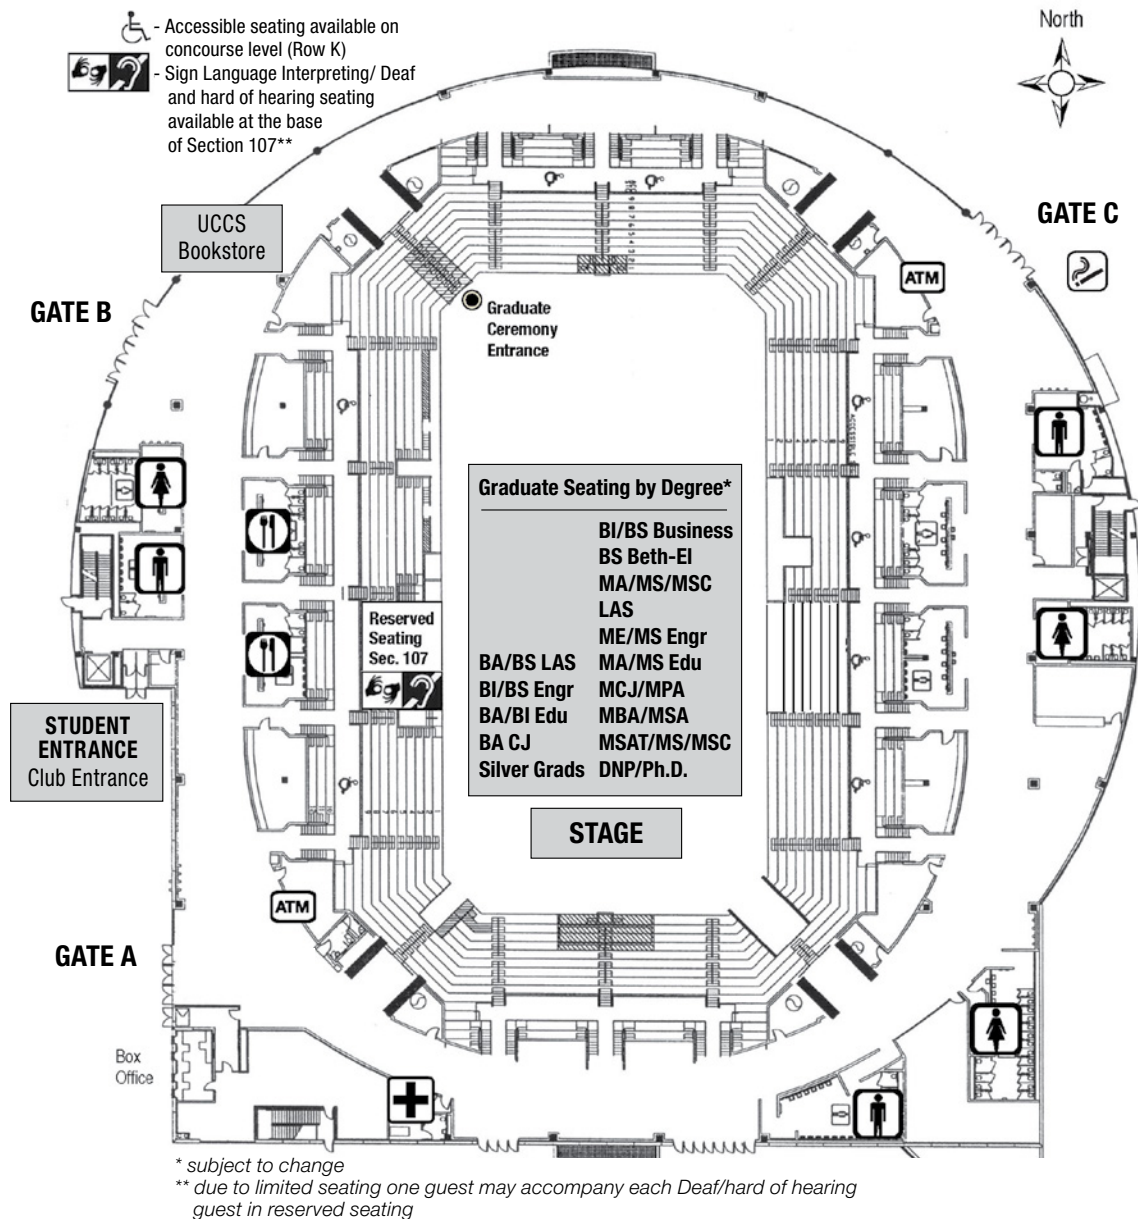

Not until 1997 did a new campaign for a UCCS mascot begin. Realizing a need for a credible mascot, the SGA collected nominees for an official mascot. The overwhelming suggestion was the mountain lion, which won by 86% of the student body vote in spring 1998. Since that time, it has been the officially recognized symbol of the University of Colorado Colorado Springs. Dakota, a 14-year-old mountain lion at the Cheyenne Mountain Zoo, was adopted by the student body in December 2002. Boomer, the costumed mascot, was named by the winner of the "Name the Mascot" contest in September 2003 and was officially introduced at Fall Fest (original name for Back to the Bluffs and Homecoming) that year.

In spring 2011 the UCCS student body voted to officially change the name of the school mascot to Clyde, based on the name of a live mascot UCCS supported at the time.

BROADMOOR WORLD ARENA MAP AND SECURITY INFORMATION

FOR YOUR SAFETY

UCCS has taken every possible measure to ensure the safety of our graduates, their families, and their friends during the Commencement Exercises. You can do your part by noting the following:

- All ceremony attendees, vaccinated or not, are required to wear a mask inside The BROADMOOR World Arena. Those non-compliant with this requirement will be asked to leave the venue.
- Once you are seated in The BROADMOOR World Arena, locate the nearest exit to your seat.
- In the event an evacuation takes place during the ceremony, we recommend your party have a pre-determined location outside the facility to aid in reunification.
- Treat all alarms as real.
- Listen carefully and follow any instructions which may be issued by the master of ceremonies, chief of police, fire chief, or other public authority.
- Parents should keep their young children with them at all times.
- Pay particular attention to the safety of any elderly persons or persons with disabilities.
- If directed to evacuate The BROADMOOR World Arena, please move away from the arena and remain outside until you have been given an "all-clear" by a public authority.
- If necessary, seek assistance from a UCCS staff member, BROADMOOR World Arena employee, or a uniformed police officer.

Thank you, and congratulations to our graduates!
